

Why I Love Living at the Hammocks at Southern Hills

The Hammocks at Southern Hills is a very beautiful place to live. When it was time to renew our lease, we decided to look elsewhere because we were down to only one income at the time of the renewal. We checked out so many places in Fairport and the surrounding area and found that it was not much more to stay at the Hammocks and continue to have the luxury that the other places didn't offer. I would definitely recommend living at the Hammocks to family and friends for many reasons; the location, the office personnel, the maintenance crew and most of all the luxury that comes with the place.

The location is great; you have grocery stores, a mini mall, restaurants, a park and ride, and all of these in walking distance. Even though we are so close to all of this I still feel we have our own private community. The wooded area surrounds the apartments for privacy from the outside world. The flowers, the trees and the way they decorate the outside of the community center on holidays is gorgeous.

I never had the need to use the clubhouse yet for a private party but some day would love to use it for one. I love that it has a small kitchen area with microwave, refrigerator and large sitting room with a fireplace. When our computer was in the shop we used the computer at the clubhouse & we've also used the fax machine to fax important documents. It was nice not to have to get in the car and go to the library or someplace to use these machines. I use the gym a lot and what is nice about it is that its opened 24hrs a day. So there is no excuse not to work out! There is a room full of books and movies that you can borrow, at no charge. In the summer there is a pool that you can cool off in or a hot tub to relax in. And you may even wash your vehicle once a week where they will supply the hose at the clubhouse. In the winter it is so nice to have the sidewalks shoveled and the street clean so that you can go to work without any hazel.

I love having our own entrance to our apartment. The balcony is very nice also, and the light that comes in from the sliding door leading to the balcony is a great feature. A nice breeze comes in when it's not so muggy out. And when it is muggy out you just need to close the sliding door and turn the central air on. This by the way is a big bonus in renting at the Hammocks. No more sleepless nights! Another luxury is not sharing a washer & dryer. Having it right on the same floor and being able to use it anytime without waiting for someone to get done, is heaven. Not to say how creepy it is in the other apartment complexes where you have to go down in the basement to do your laundry. It's like walking in a dungeon verses a castle. I also really enjoy having a walk in closet. We have enough room so that we can also use it for a storage area. Whenever something is needed to be fixed or replaced in the apartment, we've never had a problem getting it done. We have a great relationship with the office and maintenance personnel, they are very friendly and willing to help.

Now you can see why we love living here. It's our home sweet home! There will be no place to go now that we are so spoiled. As I said we had looked and looked and all we did was compare, compare, compare. There was no place that came close to replacing the Hammocks of Southern Hills we are here to stay!
